### THE FOOT-PATH TO PEACE.

To be glad of life, because it gives you the chance to love and to work and to play and to look up at the stars; to be satisfied with your possessions, but not contented with yourself until you have made the best of them; to despise nothing in the world except falsehood and meanness, and to fear nothing except cowardice; to be governed by your admirations rather than by your disgusts; to covet nothing that is your neighbor's except his kindness of heart and gentleness of manners; to think seldom of your enemies, often of your friends, and every day of Christ; and to spend as much time as you can, with body and with spirit, in God's out-of-doors—these are little guide-posts on the foot-path to peace. Henry van Dyke—in the "Outlook."

### To My Friends—THE BOYS.

Please do not use tobacco. It will enslave your mind, defile your body, and waste your money. If you HAVE begun—take my advice and stop at once, and you will be grateful all the days of your life. Be Temperate. Shun the deadly, soul-destroying galleons. Let your motto be "Touch not, Taste not, Handle not the Intoxicating Cup." Be Brave enough to be above temptation, and dare to do the right. Your Friend—A. T. Cook.

## AN INTERESTING HISTORY.

THE EDITOR.

The history of a successful venture is always interesting.

In 1893—17 years ago, the Editor of "Mission Worker" (whose picture is given on this circular,) asked for good reading matter for his invalid brother Charles (who had not walked or talked for nearly 32 years.) In 1894 the two brothers started the publication of "Shut-In-Friend," and when it left their hands in 1899 it had 1600 subscribers. In 1901 brother Charles was called Home. In December of the same year the present Editor was persuaded to leave a good salaried position as teacher in the Public School to again start the publication

of a magazine for shut-ins. He then entered this as his life-work trusting in an All-wise Father for guidance. In the past seven years the magazine has steadily grown in favor. The first edition weighed 4 pounds, and now it requires a horse and wagon to convey the monthly editions to the postoffice. ONWARD is publisher's motto. In 1904 the readers and helpers helped to erect "Mission Worker" Building, two rooms each 18X22 feet. However this proved to be too small for our fast increasing business and in the fall of 1909 we, with our many friends assistance built an addition to the above building making it two floors each 18X36 feet in size at the present time. This building and the machinery inside belongs to God and Suffering Humanity. Twelve years ago when the Editor was canvassing for "Shut In Friend," many asked what an "invalid," or a "shut-in" was. This is only the beginning of a great work for Suffering Humanity. "Work on, pray on, we are gaining ground."
